Dear AMAP friends (Lars Otto and Inger),

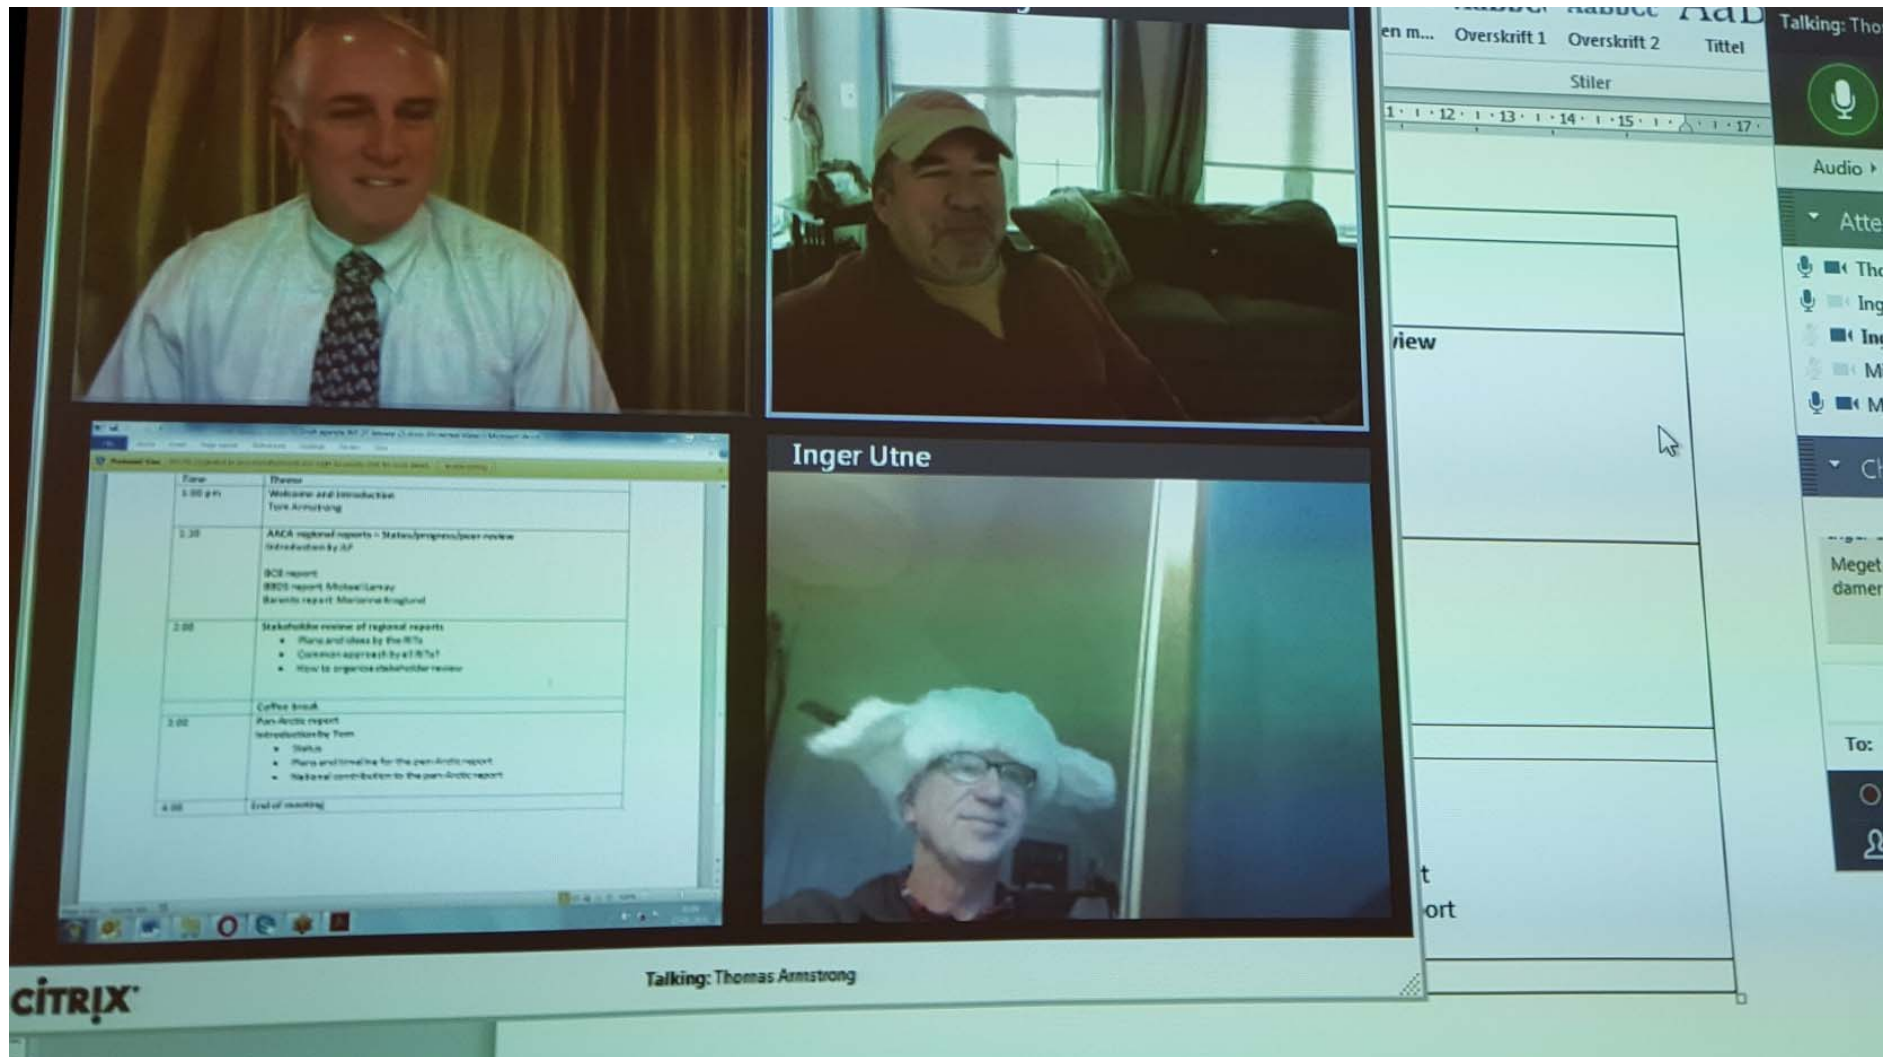

I do not have old photos but I would like to remind you of an old story. One of the AMAP meetings was held in Tromsø just after the publication of the AMAP bible of which AMAP was justifiably very proud. The meeting was held in the then very new NPI lecture theatre. Unfortunately, it was held on a Sunday and we found we did not have access to the projector room. One of the "locals" therefore went home to fetch his own projector and several newly published AMAP books were used as a platform to lift the projector! AMAP is truly multidisciplinary and its work has unforeseen uses!

Best wishes,

Terry Callaghan
